

## **CREDIT UNION OF COLORADO PRESS RELEASE**

Credit Union of Colorado held its 21st annual Charity Golf Tournament on June 1, 2012 at the Meadows Golf Club in Littleton, CO. We are pleased to announce that the tournament raised a record-breaking \$13,800. The money raised from this event was donated to the Credit Union of Colorado Foundation. In turn, the Foundation allocated this money to employee assistance grants. For example, these grants are used to help Colorado state employees and their families in crisis situations by providing them with short-term financial aid. This aid is used for such things as groceries and living expenses.

The tournament was a success due to the support and generosity of the participants and sponsors. Credit Union of Colorado would like to thank them for their support.
